

Moto Lock

Features

- Dual lock cylinder
- Lock door by collision
- Lock body made of steel
- Dead bolt has anti-theft function

Specification

Model	S-ELCR
Cylinder quantity	Dual cylinder
Finish	Nickel Plating
Extension length of dead bolt	20mm
Working Voltage	12VDC \pm 10%
Working current	350mA
Static Current	25mA
Lock-opening delay time	Automatically lock within 9s if not opened
Service life	500,000 times
Locking method	Magnetic induction
Surface temp	Low temperature
Suitable Humidity	0-90%(non-condensing)
Advantage	Low noise, low consumption, long life
Holding force	1000kg
Open ways from outside	keys or remote controller
Open ways from inside	rotary knob
Weight	2.1 Kg / unit
Operating Temperature	-40°C ~ 50°C
