

1 Channel PVT

Features

- ★ Transmission Distance: 800 Meters
- ★ Input Voltage: DC 36V 1A
- ★ Output Voltage: DC 12V 1A
- ★ Output ripple: Less than 240MV
- ★ Video input impedanc: BNC:75Ω

Model	S-PVT
Transmission Distance	800 Meters with interference-free
Wire Category	Coaxial Cable:75-5 (RG60, RG 59 recommended) or higher
Video transmission bandwidth	0.5MHZ-10MHZ
Input voltage	DC 36V 1A
Input frequency	50MHZ-60MHz 20%
Leakage current	N/A
Output voltage	DC 12V 1A
Output voltage adjustment range	DC 12V
Output current	thr rated 800MA, MAX 1000MA
Output ripple	Less than 240MV
Overload protection	Output current more than 800MA, Protection circuit disconnect the load, and then automatic connection after the working current to be normal
Video input	1.0v-vP Automatically adapted
Video input impedanc	Coax BNC:75Ω
Working Temperature	-50℃~ +50℃
Working Humidity	10%--90%
Material	Plastic

Power Solution on Coaxial Cable
