

Fingerprint Time & Attendance System

- Economic & practical: using the computer storage, fingerprint storage, intuitive operation interface.
- Easy to use: the simple management of the backstage, synchronous concept, easy to use.
- Personal authentication: Can be strengthen the management on the personal computer 's authentication, file encryption (Optional).
- Interface mode: USB 2.0 (full speed)
- Capable to store fingerprint image.

Specification

Model **S-B8**

Interface Mode	USB2.0 (Full Speed)
Sensor	Optical sensor (OPT-16 Slave)
Fingerprint Registration Capacity	Depend on Computer Storage Capacity
False Fingerprint Detection	Embedded
FAR & FRR	0.0001% & 0.01% max
Text Size	1404 Bytes
Image Grayscale	256 Shades
Picture Size	300 x 300 pixels
Light Source	Red / Green LED
Communication Speed	12 Mbps
Verification Time	< 1 Sec.
Picture Display	600 DPI
Life Time	1,00,000 hours (Typical)
Auto On Function	Supported
Operating System	Window 98 SE, Me, 2000, Xp, 7, Vista, Windows Server 2003/2007/2008/NT4 & Linux
Working Voltage	Bus-powered / 5V
Working Current	200mA
Hardened Contact Area	Yes
Operating Temperature / Humidity	-10°C ~ 70°C, RH (95%)

Time & Attendance System
