Cum Access Control

Face access control machine, High- speed recognition won't be affected as glasses and hair changed, the high - speed stable engine ARM9 CPU, large capacity, using high - definition & dual camera, the latest high-tech four ultra bright white lamp, it is suitable for working in different envirment, multirecognition: Face + password + card.

CE FC RoHS COMPLIANT

SMS @ Email & SMS Service Supported (Optional)

Specification

Model	S-FR10
Camera	Using high - definition & dual camera
Infrared lamps	One imported ultra bright lamp, 4 while lamp
Card function	Yes (Optional M1 card or ID card)
Display	Color 2.8 inch TFT LCD
Touch screen	Yes
Human body induction	Yes
LED lamp	Two (Red Green)
Input port	WG 26/34 input (can be external card reader module)
Professional access control	Yes
Communication	TCP/IP, WiFi (Optional), RS485
U disk port	Yes (notice: only support FAT32 file system)
Voice output	Yes
User registration capacity	5000
Face registration capacity	500/1200 (1200 need the storage 128M)
User record & Management	100,000/10,000
Access Control	Access control function and optional access / time zone management, Anti - submarien / duress alarm function
Attendance function	Attendance (on/off duty, overtime) time zone
Ring function	Yes
Power management	Sleep function
U disk upload / download	Yes
Registration	Information & record
Dynamic IP allocation	Yes
Algorithm version	Face v2.0
FAR/FRR	0.01% / 1%
Matching speed	< 1.1 sec.
Intelligent updating function	Yes
Face identification mode	Support 1:N or 1:1
Working Temperature	$0^0C \sim 40^0C$
Working Humidity	20% ~ 80%
