

AC Controller

Features:

- Secureye AC control panel is a touch control panel controlling central AC.
- It uses resistive 2.8" LCD Screen. The panel is equipped with high sensitive sensor to collect the temperature. It can work independently or be controlled through remote control, smart phone or tablet.
- AC control panel has four working modes: Cooling, heating, ventilation and sleeping.
- Four wind speeds: High, Mid, Low, Auto.
- Three timing modes: One time, everyday, Weekday.
- User can set indoor temperature from 15°C ~ 35°C

Model	S-10AC
Power input	AC180V-220V/50/60Hz
Rated power	800W
Screen	Resistive touch LCD
RF Sensitivity	-100dBm
Load type	Fan coil
WIFI-RF4 effective control distance	20mW
Dimensions	86*86*10mm
