

TRANSMITTER

Power and Signals to Modules

Features:

- Power and transmit signals for modules of USB smart home.
- Adopt the wide voltage, AC85V-250V input.
- Thunder-proof, water-proof and shortcut protective.
- Convenient maintenance switch; with perfect status indication
- Fire-proof cover, with the design of high temperature resistance material.
- Adopt 5mmDIN guide way mounting.

Model	S-ECB-PV28A
Input voltage	85VAC~250VAC
Voltage output	28VDC ± 2V
Maximum current	320mA
Standby power	<4A
Maximum power	<30A
Operating temperature	-5°C ~ 50°C
Dimension	72×93×60mm
