

# Intelligent Biometric Lock

## Biometric Lock with Password & Computerized Key Have a option of taking records)

Perfect crystallization of art and biometric technology. Dynamic design, fashion appearance, stable quality, smart function...

### Features

- ★ The most popular fingerprint lock in America!
- ★ Advanced biometric identify technology with fast recognition speed
- ★ High security only the authorized finger(finger ID) can unlock the door
- ★ Security, Fashion, Strong and Durable
- ★ User friendly, easy add/delete user individually
- ★ Unlock methods: fingerprint, password, or mechanical key
- ★ Reversible handles adaptive for both left or right hand( U10 only)
- ★ Double lock by lifting the handle upwards
- ★ both from inside and outside(U30 only)
- ★ Support emergency external power supply
- ★ Support passage mode
- ★ With tamper / lower voltage / pseudo password alarm
- ★ Alarm when the door is not closed completely
- ★ Handset device(optional) : Access Control function& events tracking/ user management etc

Model	S-BU2000
Hardware	
Material	Zinc Alloy
Lock color	Silver, Golden, Black Bronze
Sensor Type	Optical
Sensor Solution	500dpi
Keypad	Yes
Sensor cover	Yes
Mortise Type	Single Latch(U10) / X5(U30)
Algorithm Version	Biosure9.0
Storage	
User Capacity	100
Password	5
Enrollment & Verification	
Methods	Fingerprint, Password
Fingerprint Placement	Any angle
Verification Time(sec)	<1s
FAR(%)	<0.0001
FRR(%)	<0.1
Length of password	9 digital
Operation Environment	
Temperature (°C)	- 10° ~ 50°
Humidity(%)	10% ~ 90%
Power Input	DC6V (4pcs AA battery)
Multimedia	
Digital Display	Yes
Voice Prompt	Beep
Record Inquire	Option
Multiple Alarm	
Battery Alarm	Yes
Tamper Alarm	Yes
Try Password Alarm	Yes
Incomplete Closed Alarm	Yes
Passage Mode	Yes
Backup Unlock	External emergency battery or Mechanical Keys
Door Thickness(mm)	35~95 / 35~75
Outdoor Dimension	221 x 155 x 79
