- Up to 4 Indoor Monitors can be work together
- Remote software upgrade

Specification

Model	S-IPV4
LCD	10.922cm (4.3) TFT-LCD
Input voltage	DC18V
Sensitivity	20mV
Distortion	5%
Display Pixel	130,560dots
Working Current	350mA ± 20%
Quiescent current	200 mA ± 20%
Output power	50mW
Display time	About 60 S
Network port	RJ45
Network transmission mode	TCP/IP
Transmission range	Router or PBX less than 60m, FOT more than 60
Working Humidity	45% ~ 95%
Storage temperature	- 15°C ~ 55°C
Outdoor Station	
Image sensor	1/4" V09710 sensor
Sensitization area	×2. 5
Output format	10- bit raw RGB
Resolution	1.3mega pixel
Minimum illumination	F1.2, 0.8Lux
Network transmission	100m
Qty of sub cameras	7
Defense level	IP33
Input voltage	DC18V
Static current	100mA
Working current	150mA
Working Humidity	45% ~ 95%
Working temperature	- 30°C ~ 55°C

IP Villa Intercom System
